Feel free to use the chat box

WHAT ARE INDUSTRY PLACEMENTS?

 Time spent by a 16-19 year old student learning and working in an organisation

 In a real environment – with an employer, making a meaningful contribution to the organisation

Minimum of 315 hours (approx. 45 working days)

 Occupationally-specific – developing students' practical and technical skills

WHAT DO INDUSTRY PLACEMENTS EMPLOYERS NEED TO OFFER?

- Projects and tasks for students that will help them to learn practical and technical skills
- A safe work environment
- Equipment and resources for the work
- Induction
- Someone to supervise and someone to mentor
- Feedback and review

WHICH PLACEMENT MODELS MIGHT WORK FOR YOU?

MODEL

When this model might work

Example role

DAY RELEASE

- Where a regular, steady pattern may suit the business
- Where repeated tasks may need doing e.g. weekly
- Where supervision time may need spreading

IT Support Team member

BLOCK

- Works well for seasonal occupations
- Where there may be high levels of demand at times
- For project-based assignments / working patterns

Coding and software engineering

MIXED

- Works well for those with unpredictable workflows
- Where work may be part-seasonal
- Where it makes sense to cover induction as a block, then moving to day release afterwards

Social media campaign

WHY OFFER AN INDUSTRY PLACEMENT?

Talent pipeline for the future

Good for your reputation

Fresh ideas from the next generation

A chance for staff to develop supervisory and mentoring skill

Build a more diverse workforce

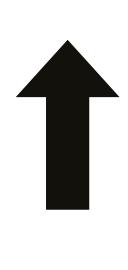

Improve the profile of your business

POLL

Which of these have you had in your organisation?

- *industry placements
- *work experience
- *apprenticeships
- *internships

WHAT ARE T LEVELS?

THREE EDUCATION AND TRAINING OPTIONS, POST-GCSE

A LEVELS

Subject-based qualifications

two years at local college or school

TLEVELS

2-year technical programmes at Local colleges, schools, training providers 80% classroom based 20% in a placement

- Animal care and management
- Agriculture, land management and production
- Craft and design
- Media, broadcast and production
- Hair, beauty and aesthetics
- Catering

UPDATE FROM THE
DEPARTMENT FOR EDUCATION

CHRIS FLYNN
INDUSTRY PLACEMENTS
POLICY T LEVELS

SKILLS PLAN (JULY 2016)

- Sainsbury Panel's recommendations
- Technical education reform

Tackling longstanding problems with our skills system:

- Complicated
- Lack of direct employer involvement
- Lack of clear progression routes

SOME OF THE CHALLENGES

- One Size Doesn't Fit All
- Encouraging employers to offer placements
- Accessibility of placements
- Health and Safety / Security Clearance
- Financial and resource costs to employers

PROGRESS...

- Pilot in 2017/18
- Updating the industry placements policy in May 2019
- £60m in capacity building funding
- Investing in the National Apprenticeship Service (NAS)
- Employer support package

• £7m employer support fund pilot in September 2019

 Maximising industry placements in the Civil Service and wider public sector

Deep-dive case studies

Evaluation about to be published

NEW FLEXIBILITIES

- Students can work with 2 employers
- Using on-site facilities for SEND for part of the placement, and for young offenders for all the placement
- 35 hours of relevant work tasters can count towards the placement
- Part-time work can count if it is relevant and developing level 3 skills
- Placements in hours rather than days to reflect different working practices

NEW FLEXIBILITIES for route-specific models

- Construction / Engineering Skills Hubs
- Construction: Students can do a commercial, charitable or community project for 105 hours
- Digital: broader options for placements

THE VALUE OF INDUSTRY PLACEMENTS

THE VALUE OF INDUSTRY PLACEMENTS

Developing a pipeline of diverse talent

Insights and skills for young people

Building strong links between education and the workplace
